RGB Waterproof 3 LEDs Module(Square)

1. One group of RGB LED is set compactly on the PCB board in the letter "A" style. The LED, whose beam angle is 120°, is of soft, full and well-mixed color. Wires coming out from the top of the PCB board.
2. The chips of the LED are from famous international company. The luminous body is of high intensity, large beaming angle, good quality and great stability.
3. ABS engineering plastic housing glued with epoxy not only makes the product wholly waterproof(IP68) but also keeps it being of high intensity and great ability of anti-ultraviolet.
4. Power consumption: Max 0.72W/pc
5. It can be RGB controller to realize the effects of multi-color jumping, gradual color changing, etc. It also can realize whole color changing by controller. This LED module can be widely used both indoor and outdoor, such as indoor decoration, small floodlight, signs, logos, cove lighting, edge decoration, etc..
6. Package: White box

Characteristic:

Description	Size(mm)	Drive Voltage	Power Consumption	Intensity (mcd)	Viewing Angle (deg)	Waterproof
RGB Waterproof 3 LEDs module (square)	31*27*10.5 (H)	DC12V	0.72W/pc	R=1000 G=1600 B=500	90	IP68
